

why choose the ordinary? why choose the ordinary?

WHY CHOOSE THE ORDINARY?

CORPORATE EVENTS

Green Meetings and Events

Our Sustainability Vision

Climate change is one of the most significant threats facing the world today. Through our charitable mission and values, we are committed to working with our neighbours and city partners to enhance the environmental sustainability of the local area and to use the changes to promote the science and technology behind climate change.

Glasgow Science Centre's sustainability vision supports Glasgow City Council's target of becoming carbon neutral by 2030 and the Scottish Government's aim of becoming a net-zero nation by 2045. We will use our unique and responsible position to show leadership and best practice to give back more than we take from our natural surroundings.

**WHY
CHOOSE**
AN ORDINARY VENUE?

Events Administration

Our contracts are developed so they can be electronically signed eliminating the need for printed copies.

For commercial events including Christmas Parties and Question of Science we no longer offer physical printed tickets.

Where possible our client site visits and meetings are with all information logged and recorded on an iPad or laptop.

Instead of a physical printed Corporate Events brochure we have developed an e-brochure.

Client and supplier invoices are all digital.

Glasgow Science Centre staff can view Corporate Event bookings via an internal portal called GSC today. GSC Today is fully digital with live event updates meaning there is now no need to print event function sheets.

CHOOSE**
AN ORDINARY VENUE?

Food and Beverage

We also work hard to support local business and source the best possible Scottish suppliers.

The food and drink that we provide for staff, visitors and corporate clients is organic and fair trade wherever possible. We also aim to source produce locally.

We encourage recycling with a total of five different bins available.

We also utilise Vegware's Close the Loop collection service meaning that after the products have been used the vegware products together with the food waste are composted locally within Scotland.

We offer paper straws instead of plastic straws.

**WHY
CHOOSE**
AN ORDINARY VENUE?

Events Operations

To reduce wastage, as standard we do not offer pens and paper.

We have outdoor event space to promote delegate wellbeing.

All of our lighting is LED light bulbs.

Delegate travel

We have 360-degree images and videos of our event spaces. This can reduce unnecessary traveling for client site visits.

Glasgow Science Centre is easily accessible by public transport links.

We can offer our delegates EV charging points, we have dedicated cycle lanes and increased our bike storage.

From changing suppliers to improving the biodiversity on our site, Glasgow Science Centre's Green Team have been working hard to reduce our environmental impact. Discover the changes we have made on our journey towards carbon neutral.

CORPORATE EVENTS

Inspire the next generation.

Glasgow Science Charity is an educational charity. Holding your next event here helps us in our mission to inspire everyone to explore and understand the world around them and to discover and enjoy science.
